OLALEKAN AYORINDE

Visual & Motion Designer, Digital Creative

Portfolio | Instagram | LinkedIn | Email | Lagos, Nigeria

PROFILE SUMMARY

Visual & Motion Designer with a strong foundation in storytelling, concept development, branding, motion, and layout design, working across After Effects, Photoshop, DaVinci Resolve, Figma, Blender, and Cavalry. I've built visual campaigns and educational content for Web3 startups and creators, bringing a founder's perspective from my own background in startups and freelance work, generating hundreds of thousands of views across socials for clients spanning both Web2 and Web3. Comfortable owning a project from concept to final render, across explainer videos, brand campaigns, and websites.

TECHNICAL SKILLS

Motion Design & Animation: After Effects, Blender, DaVinci Resolve Fusion, Lottie/Bodymovin, Jitter

Design: UI/UX Design, Graphic Design, Logo Design, Brand Identity

Development: Vibe Coding, Website Design & Build

Other: Video editing, 3D, illustration, *Rive

WORK EXPERIENCE

Freelance Motion Designer **Sept 2025 - Present**

- Motion and campaign work for 30+ brands and personal projects, including Samuel Xeus, Abraham Chase, Vhictorry, and The Big 8.
- Produce launch videos, social motion, and campaign graphics for Web3, education, creator, and film-related briefs.
- Deliver end-to-end: brief, animation, revisions, and platform-ready exports.
- Balance paid client work with personal projects used to refine style and storytelling.

Motion Designer — Nirvana Academy **Sept 2025 - Present**

- Own visual and motion output for Nirvana Academy across social, event, and education campaigns.
- Design graphics for cohort launches, class announcements, community meetups, and partnership content.
- Produce motion videos used to promote programs, recap events, and explain academy offerings.
- Keep visuals consistent with the Nirvana brand (chess motif, bold typography, community-first tone) while shipping regularly.
- Collaborate with the core team on fast-turnaround comms for an active Web3 education brand with 10,000+ graduates.

Motion Designer & Illustrator — Zerocard **Nov 2025 - Apr 2026**

- Designed brand illustrations, motion videos, and campaign flyers for Zerocard, an Africa-focused crypto spending product (virtual + physical Visa cards funded with USDC/USDT).

- Produced social-first visual assets that explained product benefits, instant spend, cross-border transfers, Apple Pay/Google Pay, low-friction onboarding across X, Instagram, and launch campaigns.
- Created motion explainers and product walkthroughs used to drive app downloads and card activation during the early growth window.
- Built a consistent visual system (illustrations, typography, green brand language) for flyers and short-form video that translated technical crypto payments into every day, culturally relevant stories.

Motion Designer — VentureMind AI **Nov 2025 - Feb 2026**

- Motion designer on two VentureMind AI sister products (not the core brand page), delivering 5+ videos across launch and feature-update campaigns.
- Built launch videos that introduced new products and capabilities to community and social channels.
- Produced feature-change / product-update motion to communicate UI and functionality shifts without long explainers.
- Followed established design systems (color, type, logo lockups, motion language) so work stayed consistent across products.
- Worked in a high-tempo team environment with tight turnarounds, stakeholder feedback, and frequent shipping.

Brand Designer — Xi Studios **Jul 2025 - Sept 2025**

- Worked within studio pipelines to meet client deadlines
- Created presentations, mockups and assets for the studio to meet deadlines

Lead Designer — Buildhubb **Jun 2023 – Apr 2025**

- Delivered motion design work for 30–40+ brands and individual clients, including social content, explainer videos, and brand animations
- Led end-to-end design of visual themes and collateral materials for marketing campaigns
- Developed brand-consistent assets for print and digital media, boosting client brand visibility
- Created templates and design systems that streamlined the team's workflow by 30%

Graphic & Motion Designer — Google Developer Groups (GDG LASU) **Oct 2023 – Jul 2024**

- Designed a high volume of event flyers for campus Google Developer community covering workshops, info sessions, speaker lineups, and community campaigns.
- Supported LASU TECH X 3.0 and other chapter programs with consistent visual assets aligned to Google/GDSC brand guidelines.
- Produced a motion video to promote community events and make announcements more engaging than static posts.

- Collaborated with the core team to turn event briefs into clean, readable, on-brand designs under tight student-community timelines and promotional assets used across campus events.
- Helped the chapter look professional and cohesive across social channels during the 2023/2024 academic cycle.

Graphic Designer — Self-Employed **Dec 2022 - Jun 2023**

- Delivered graphic design and logo design work for 20–30+ brands
- Created brand identities, social media assets, and print-ready designs

EDUCATION

B.Sc. Physics — Lagos State University (LASU), Ojo **2026**
3D Design — Techathon **2023**

VOLUNTEER/COMMUNITY

Blockfest Africa — Visual & Motion Designer **Sept 2025 – Present · Seasonal**
Lagos edition (2025) · South Africa edition (2026, remote)

- Designed brand graphics, illustrations, and motion videos for Africa's leading Web3 festival.
- Supported campaign and event comms for the inaugural Lagos gathering and the 2026 Cape Town / South Africa edition.
- Worked remotely on visuals and motion for the SA edition earlier in 2026.

TechNova Summit — Motion Designer (Volunteer, Stipend) **Jan 2026 – Present · Seasonal**
Abakaliki, Ebonyi State

- Designed campaign graphics and motion videos for the inaugural TechNova Summit.
- Supported brand and event comms for a multi-day innovation festival focused on African talent, tech, and opportunity.
- Helped give a South-East Nigeria innovation festival a consistent, professional visual identity ahead of the March 2026 gathering.
- Delivered festival-cycle work on a short seasonal timeline.
